Touting unrivaled flexibility, SAM® Splint bends into any simple curve, becoming exponentially stronger and more supportive. SAM® Splint is globally acclaimed by emergency care providers, outdoor enthusiasts, the U.S. military, and even NASA.

SAM® Splint leverages the revolutionary C-Curve™ Principle to mold its foam and aluminum layers into structural arcs, strong enough for pre- or post-cast care, while remaining lighter and more transportable than traditional splints that rely on heavy, rigid materials. Bend it back into its original form to stow away or remold for a separate injury.
ENGINEERED FOR VERSATILE SUPPORT

1. CUT-TO-SIZE
   SAM® Splint’s two layers of closed-cell foam and its aluminum interior can be cut with ordinary scissors to adapt to any size requirements.¹

2. MOLDABLE ALUMINUM
   Flat, O-temper aluminum inside the splint’s outer layers molds easily, allowing for a wide spectrum of applications.

3. CLEANABLE EXTERIOR
   Exterior closed-pore foam can be cleaned and disinfected with bleach and water for reuse.²

4. RADIOLUCENT MATERIAL
   Medical professionals are able to take X-rays and CT-scans without removing the splint from the fractured or injured limb.

5. WEATHER RESISTANT
   Designed to function across the spectrum of global temperatures – from the Sahara to Mt. Everest.

6. LIGHTWEIGHT DESIGN
   Substantially lighter than plaster or fiberglass splints, SAM® Splint requires only a wrap or tape to secure an injured bone or stabilize a joint.

PRODUCT SPECIFICATIONS

### BLUE / ORANGE MODELS*
- 36" Roll (SP506-OB-EN)
- 36" Fold (SP507-OB-EN)
- 36" XL (SP508-OB-EN)
- 18" (SP502-OB-EN)
- 9" (SP500-OB-EN)
- Finger (SP510-OB-EN)
- Industrial (SP504-OB-EN)

### CHARCOAL MODELS*
- 9" (SP500-CH-EN)
- 18" (SP502-CH-EN)
- 36" Roll (SP506-CH-EN)
- 36" Fold (SP507-CH-EN)
- 36" XL (SP508-CH-EN)

### OD GREEN MODELS*
- 36" Fold (SP507-OD-EN)

### VET MODELS
- 36" VET (SP526-OB-EN-543)
